The news from Mendeo is of a highly interesting and exciting character. French communication between Vern Cruz and Orizaba has been completely cut off by the Mexican guerillas, and can only be re-established and kept up by the French positing a strong guard all along the route. The Mexican guerillas are in strong force all along the route, and werry the French unccasingly.

It is reported that the French have been repulsed and driven back, from before Puebla, with great loss. The French Gen. Berthier's ranguard, 4,000 strong, was completely surprised by 1,300 to 1,300 Mexican cavalry, and about 1,000 of the French troops were killed and wounded. Savoral French officers were taken by the base and dragged off.

The prospects of the French look exceedingly bad. They can get no supplies from the country, and are surrounded by a most determined enamy, who watch every opportunity to take advantage of them. No French soldler can stray from his camp without being lassoed and dragged off by some Mexican guerilla, who is on the watch for him.

Wool issued orders to the several commanding officers of the regiments forming the whole militis in the State, to report to him the aumber is each corpared for daty, with other particulars relative to their efficiency and the arms in their possession. The orders were quiestly service on these officers, and the commandants of the regiments of the 3d dlyision responded by presenting their reports to then Wool. It is understood Gen. Wool informed them that he was empowered by the general Government to perform this duty. Some of the segments of the lat division reported to General Wool, but others toldly refused to do so, on the ground that Gov. Seymour was legally the commander of the forces of the State.

Yesterday Gen. Hall first heard of this movement of Gen. Wool. He immediately proceeded to the headquarters of the commander of the Beat, and had a length interview with Gen. Wool, during which he entered a protest in behalf of the State forces against the order of the General requiring them to report to him. This new movement has created great excitement in military choice, and the prevailing opinion respecting it, is that it embodies the design of the national administration to place the militia under their control.

orleans. Indeed, indications not to be mis-taken, point unceringly to the organiza-tion of our forces for a new attack, which probably cannot be long de-ferred. With the aid of Banks and Farra-gut in the South, Grant and Porter on the their entreachments, powerful in numbers, and armed with all the resources of defense, the rebels may not perhaps be safely attacked. Brave as our iroops are, they are are not yet the equals of veterans in carrying positions by storm. Hence, to eare much precious life, and make defeat impossible, our armies and firsts may take atton before and around the city, and aft events. Starvation is a powerful pa-festor; and in its clutchers, an enemy, ough beneath casemates or behind bone-oofs, example to go hold out. Corn and

new examples of courage and devotion, restore the prestige which official misman-agement and incompetency destroyed. The Unionists of Richland county had a meeting, at Olary, on the 18th bash, at which Joseph B. McGinniss, Esq., presided, and in Sampel will be a virtual end of the War in the Southwest, and the heaviest blow that the rebel cause could receive. When ordered forward, they will go, shough death bars the way. Brave boys! how proudly your friends at home seeite your names and praise your rallant deeds?

The Unionists of Richland county had a meeting, at Olary, on the 18th bash, at which Joseph B. McGinniss, Esq., presided, and Smmel K. Carothers was forecard. A surfect of patriotic resolutions were adopted with great unanimity. Richland is one of the strongest Democratic countries in the State, but the Copperheads will be promptly met dand praise your friends at home seeite your names and praise your rallant deeds?

John A. Washington of Mt. Vernon.

In December Col. Hascall moved his regiment to Louisville, Ky.; he was there put in command of a brigade by Gen. Buell, and has served in Buell's army (now the anny of the Cumberland) ever since.

On the 26th of April, 1868, 60th Hascall was commissioned by the President and Senate an Brigadier General. During his service in Kentucky, Gen. Hascall has been in many akirmishes, but never until the Murfreesbore fields he taken an active command in a

skirmishes, but never until the Murfreesboro fight has he taken an active command in a general engagement. At that fight he was in command of one of the most important points on the field of strife. How well he did his work his report proves. If he had been repulsed, or had he given way, the day would doubtless have been lost. We doubt not higher honors and many more victories will crown his valor and loyalty.

will crown his valor and loyalty.

A Happy Hit.

A few days since while at 8pringfield, I heard a conversation between several members of the Legislature, in which a couple of leading Democrats were boasting that they were too strong for the Union side of the House. A dispatch had just been received memory and his place that the rebels were defeated at Murfreesbaro. Col. Coler, a War Democrat from Champaign. (since voted out, and his place given to Basey, contestant,) spoke up very quickly, saying: "Yes, you are too kirong for us Are, but we're giving you the devil at Murfreesbaro b

Wo J. V. Parwell, esq. J. Hancock, Chas. H. Walker, and members of the Board of Trade, Chicago Ill.:
Thinking, perhaps, that you as well as many of our friends, of the Board of Trade regiment after our first battle, (or at least in which we took an active part on the field,) I, for want of a better hand (our regular-correspondent being wounded) write out. After feeling of the enemy at Yicksburg, and waiting about a week for Grant and Banks to come up, our expedition returned to the mouth of White River; where our gunboats planned the expedition against this post, and we were not long in getting under way. Landing us a point about two miles below the fort, covered by the point and heavy timber, we ing at a point about two miles below the fort, covered by the point and heavy timber, we formed in line of battle as follows: Sherman's army corps, composed of Steele's and Stuart's divisions. (Dave Stuart) took the advance or right, and Morgan's army corps. Our brigads, composed of the 118th. (ed Boord of Trieds, 116th In. and the 6th and 8th Mo., under command of Col. Hiles Smith, and, in conjunction with the gumbants, drove the enemy from their rifle pits on the east taking about sixty prisoners. The 8th Missouri was deployed as aktrahabers, and soon drove the enemy from their rifle pits on the east taking about sixty prisoners. late John Jacob Astor, a gentleman of large wealth, and a strong "conservative," is to the point:

To the Editor of the New York Times:

It has usually been my fate to play the part of a political Cassandra, uttering forebodings of evil which nobody would listen to, but which, nevertheless, were pretty nearly verified. You may think it a useless crying over split malk, but the last instance of this is so striking that I must call your statution to it. Just before the State election, a letter of mine appeared in your columns, showing the labsurdity of Governor Seymour and his party calling themselves conservatives, or of any one expecting any conservation from them, when they had noteriously for years been the princip al violators of law, order and justice all over the country.

The majority of our voters, being given over for their sins to believe in 8 de, did believe in Homatic Seymour's conservation, and and what is the result? Just nineteen days has be been in power's conservation.

Many persons of properts Seymour. It is said that some such have supported Seymour. It is said that some such have even supported that Woods. If suppose that it is on the same principle that some African tribes worship the devil—for fear he should do them harm. But the lesson will not have been thrown away if these misguided individuals can read it aright, so as to see that the worst way of dealing with these emmiss of law and government, North and South, is trying to conciliate them, and that, whatever danger there may be in resisting their attempts, submission is the greatest of all dangers.
